

1. why do the fallen angels try to harm us?

God created the angels much before He created the human beings, but they disobeyed Him and God threw them out from the garden of Eden. This created a vacuum. God created human beings to fill the gap left by the fallen angels. This is the reason why the Devil tries to harm us. We have taken their place.

2. what are the sources of temptation? -

Devils tempt us and draw us away from God. They give false promises and deceive us. They are not only the only source of temptations. The world and our own passions can lead us to sin. Devils cleverly mislead us.

3. can Devil force us to sin?

We must remember that the Devil can only tempt us to sin but he cannot force us to commit sin. We sin by yielding to temptations. God has given us the freedom to choose: to say "yes or no." No one can be rewarded if she/he cannot say 'no'. God gives us the strength to resist temptation and avoid sin.
